Tia, I'll keep working on it until 4, but thought I'd send what I have so far (up to page 56). Roland

Okay, just talked to Meg. In order for her (& Megan if necessary) to get final edits in and get this to me at a normal time so I can compile & format, we think it'd be best if you could just send us whatever you've got at 4pm.

Hey Roland,

Just wanted to touch base and see where you were on edits to 3.3. If you have a ways to go yet, I don't know what Meg has planned for the day, so I'll have to defer to her on when we need to just have you send what you've got.(considering she'll need time to make your edits and still get the section to me so I can compile & format all of Ch 3).

Thanks, Tia
